pre-cast tris-tricine gels
lds sample buffer
modifying enzymes - klenow fragment
laemmli sample buffer
tris-edta (te) buffer
horse serum
enzymes - t4 polynucleotide kinase
mes-sds buffer
goat serum
balanced salt solution
donkey serum
pre-cast tbe gels
re nutritional supplement
acrylamide
sphate-buffered saline
nitrocellulose blotting membranes
culture nutritional supplement
cell culture dissociation reagents
based microbial dna purification kits
rnase inhibitors
site-directed mutagenesis systems
column-based dna plasmid midiprep
pre-cast tris-glycine gels
sphate-buffered saline
nucleic acid gel stains
rna stabilization reagent
column-based gel dna extraction kits
reverse transcriptase
column-based dna plasmid miniprep
column-based dna plasmid maxiprep
pvdf blotting membranes
high-fidelity dna polymerase
bovine serum albumin
hot start pcr systems
unstained protein molecular weight ladders
first-strand cdna synthesis systems
chemiluminescent substrates
taq polymerases
