pre-cast tris-tricine gels
lds sample buffer
odifying enzymes - klenow fragment
laemmli sample buffer
tris-edta (te) buffer
horse serum
enzymes - t4 polynucleotide kinase
mes-sds buffer
goat serum
balanced salt solution (hbss) buffer
donkey serum
pre-cast tbe gels
re nutritional supplement
tryptone
acrylamide-bis solution
sphate-buffered saline (pbs) buffer
nitrocellulose blotting membranes
lture nutritional supplement - yeast
cell culture dissociation reagents
based microbial dna purification kits
rnase inhibitors
pre-cast bis-tris gels
site-directed mutagenesis systems
column-based dna plasmid midiprep
pre-cast tris-glycine gels
osphate-buffered saline buffer
nucleic acid gel stains
rna stabilization reagent
column-based gel dna extraction kits
dnase i
reverse transcriptase
column-based dna plasmid miniprep
column-based dna plasmid maxiprep
pvdf blotting membranes
high-fidelity dna polymerase
bovine serum albumin
hot start pcr systems
ined protein molecular weight ladders
unstained dna ladder
first-strand cdna synthesis systems
