pre-cast tris-tricine gels
lds sample buffer
ying enzymes - klenow fragment
laemmli sample buffer
tris-edta (te) buffer
horse serum
enzymes - t4 polynucleotide kinase
mes-sds buffer
goat serum
balanced salt solution (hbss) buffer
donkey serum
pre-cast tbe gels
re nutritional supplements - dmem-f-12
onal supplements - tryptone
acrylamide-bis solution
sphate-buffered saline (dpbs) buffer
nitrocellulose blotting membranes
ulture nutritional supplements - yeast
cell culture dissociation reagents
protein gel stains
based microbial dna purification kits
rnase inhibitors
pre-cast bis-tris gels
site-directed mutagenesis systems
column-based dna plasmid midiprep
pre-cast tris-glycine gels
osphate-buffered saline (pbs) buffer
nucleic acid gel stains
rna stabilization reagent
rpmi
column-based gel dna extraction kits
dnase i
reverse transcriptase
column-based dna plasmid miniprep
column-based dna plasmid maxiprep
pvdf blotting membranes
high-fidelity dna polymerase
bovine serum albumin
hot start pcr systems
unstained dna ladders
ined protein molecular-weight ladder
first-strand cdna synthesis systems
