rna stabilization reagent
protein gel stains
tris sample buffer
reverse transcriptase
culture nutrition supplement
column-based genomic dna extraction kits
balanced salt solution
polymerase chain reaction buffers
pre-cast tris-glycine gels
dna polymerases
nucleic acid hybridization buffers
dna ligase
restriction endonucleases
pre-cast tris-glycine gels, 12
high-fidelity dna polymerases
chemiluminescent substrates
first-strand cdna synthesis kits
cell culture dissociation reagents
phosphate-buffered saline (pbs) powder
tris-edta (te) buffer
