Iteration
xylenes
graduated cylinders
cell lysis detergents - tween detergents
cell strainers
microcentrifuge tubes
colorimetric substrates - tmb
lab coats
pipette tips
sodium bicarbonate
potassium carbonate
bacterial selection antibiotics
storage jars
cell culture tubes
phalloidin conjugates
cell culture antibiotics - puromycin
cell culture antibiotics - pen-strep
laboratory spatulas
isopropanol
methanol
dehydrated bacterial broth
hepes buffer
affinity resins - gst-tag
reducing agents
detection kits
